

# TEAM BUILDING

# WITH SMACK TALK

**Looking for a way to build teamwork in your employees and co-workers that is unique, local, affordable, and fun?**

**Want to blow off steam with your co-workers in a no-holds-barred frag-fest?**

MechCorps can offer a way to release frustrations AND build teamwork in the same event at our headquarters or at your office or corporate event. Cooperative Teams compete for a goal in a virtual battlefield. Female Pilots can compete with the Male Pilots in this easy-to-learn game.

The Virtual World BattleTech Cockpit Simulator Pods are fully enclosed military style simulators that feature 7 screens, over 90 control systems, and a 12 speaker surround sound system. When seated in the pod, the player pilots one of a selection of BattleMechs onto one of 25 landscapes to compete for battlefield superiority with those seated in surrounding cockpits.

Learn to pilot these 3-story, walking tanks from MechCorps' Drill Sergeants as we take you through a short BootCamp before releasing you into combat. Our experienced BattleTech Veterans will assist your teams with war strategies and battle plans and coach you through the Mission Review Video after each battle is over. This is not just a game, it's an escape from the everyday rut.
